Work Experience

Software Developer

Tech Mahindra Ltd - Pune, Maharashtra

September 2016 to Present

REST, Django, Python3, Beautiful Soup, Request, Javascript, JQuery, Ajax, MySQL.

- A user friendly library website developed using django framework having features like Google/GitHub Sign-In, users can register/login and get complete list of all the books, author can change the book status, update the author record. Deployed on pythonanywhere.
- <http://abhi868.pythonanywhere.com/> • Built a social network app 'Connect2Go' where users can create, view and edit their profiles and reset their passwords.
- Built a django rest framework app 'Webapp' which has endpoints for admin and normal users. Admin can view, edit and add while users have permission to view the list of movies and can search for a specific movie.
- Built a movie finder application which consumes omdb API which gives list and detailed view of a movie based on keyword search.
